

WHAT SPAIN ASKS OF OUR GOVERNMENT

LATEST OFFICIAL MANIFESTO FROM MADRID.

Its Requests Will Not Be Granted, and a Time Limit Likely to Be Set For the Accomplishment of the Original Demands—She Will Yield After Some Protest.

Paris, Nov. 18.—No unofficial person knows the contents of the document presented by the Spanish commissioners Wednesday, but it is safe to assume that, added to her insistence on the reservation of her Philippine sovereignty and her proposition to arbitrate the construction of the third article of the protocol, Spain has made two other important statements:

1. That on the high ground of financial probity she cannot allow any discussion here of the validity of her action in pledging the resources of the Philippines for the payment of the Philippine debt.

2. That in connection with the American proposal to reimburse Spain for her Pacific expenditures in the Philippines she cannot admit of any inquiry as to how she has spent the proceeds of the loans based on the Philippine pledges.

If Spain has assumed this attitude, and it is believed she has done so, she practically compels the American commissioners to consider at least the entire Philippine debt and its assumption by the United States or the Philippine islands as a condition to Spain's amicable surrender of her sovereignty over those islands.

It is difficult to understand how the Americans can reply to this in any other manner than by strictly outlining their position and giving the Spaniards a time limit in which to accept the propositions of the United States. But the American commissioners may patiently continue their endeavors to arrive at an amicable understanding on the subject.

The Matin, in reviewing the history of the late war, criticizes the American attitude in regard to the Philippine islands, and says Prince Bismarck on one occasion remarked that "When you have your knee on a nation's neck you should make her cough out all you can," adding:

"It is possible the United States now remembers this brutal maxim, and it is possible the United States has forgotten the rancor, hatred and exasperation it involves."

TELL SPAIN TO YIELD.

Madrid Papers Insist Further Delay Is Dangerous and Useless.

Madrid, Nov. 18.—Almost all the papers deprecate the dilatory proceedings at Paris, expressing their belief that the United States will decline arbitration and urging the government to yield quickly, since it is impossible for Spain to renew the struggle or expect European assistance, and, furthermore, because it would be better to cease wasting money and to concentrate attention upon Spain's domestic affairs and the restoration of her finances.

France Will Coerce Spain.

Washington, Nov. 18.—France, who brought about the present conference between the United States and Spain, has not ceased her good offices, but may yet prove an important factor in arranging the final terms for peace. According to a well-posted official here, the Paris government expects to compel Sagasta to submit. This man said: "France is the factor which will settle the pending dispute between America and Spain. The influence of France is being exerted today in Paris and Madrid to bring the Spanish commissioners to their senses and to terms."

Activity in the Navy Yard.

New York, Nov. 18.—Navy yard officials will not admit that they are looking for a resumption of hostilities, but it was regarded as somewhat significant that the Texas was taken out of dry dock Thursday on extremely short notice, and began taking on supplies. It was not expected that she would be floated before Saturday, and the sudden move, coupled with the understanding that all the ships must be ready for sea at short notice, caused considerable excitement for a time.

No Orders Reached the Camp.

Savannah, Ga., Nov. 18.—The report from Washington that the movement of the Seventh army corps to Cuba would begin in ten days has been the chief topic of conversation with the staff and regimental officers. Gen. Lee has received no orders from Washington. All furloughs which were given out today were limited in every instance to Dec. 1, and this would seem to indicate that preparatory orders at least are expected before the first of the month.

Schley Will Go to Sea.

Washington, Nov. 18.—When Rear Admiral Schley was here a few days ago he told President McKinley that he wanted to be assigned to sea duty, and the president promised that the request should be complied with. The admiral is expected to return to Washington in about a month, and if the peace commission has reached a satisfactory conclusion by that time he will probably be ordered to the command of a special squadron to be assembled at Hampton roads and later sent to Europe.

HOW PRISON LABOR MAY BE EMPLOYED

IMPROVEMENT OF COUNTRY ROADS BY ITS USE.

Proposition to Be Submitted to the Legislative Committee—Convicts Will Interfere Less With Free Labor in That Than in Any Other Line of Industry.

Milwaukee, Wis., Nov. 18.—The wheelmen will present a plan to the prison commission tomorrow which, if adopted by the state and carried out, will furnish a solution of the problem how to employ the convicts without conflicting with the interests of the laboring men and which will also furnish the counties of the state with the means to secure good roads at a nominal cost. The wheelmen will ask that the convicts be employed in preparing material for building roads, without taking any part in the road building, leaving that for the counties to do.

The proposition will be presented by Chief Consul Frank P. Van Valkenburgh, Martin C. Rotter, former chief consul, and Otto Dörner, chairman of the national good roads committee. The plan which will be suggested will embody the best portions of those in operation in states where the convicts are used in building good roads. In addition to the officers of the division, there will be a large number of other wheelmen before the commission.

The proposition is for the state to condemn and purchase quarries in different sections as its contribution to the counties to aid in road building. Then stockades are to be erected, and in this way the convicts will not be allowed to come in touch with the people, as they would if employed upon the roads. It is contended that too much crushed stone cannot be secured to satisfy the demand of the counties, and it is to be apportioned among the counties according to the number of road miles and the amount desired.

The opportunity of working in the stockades is to be made a privilege of itself, and in addition there will be no other privileges which the convicts in the prisons do not enjoy. It is believed that the railroad companies will be willing to carry the stone at the mere cost of hauling, and glad to accept stone for a portion of the amount, to use as ballast along their lines.

Women Need Not Be Discouraged.

The nervous tension under which most of our women constantly live affects the female organism seriously. Heavy household burdens, social gossamer, work in some commercial establishment, any of these duties seem impossible to women who are ill and yet they keep up for a time under pressure of the demands upon them. When they do break down, the care and treatment they receive from their family physician don't go to the root of the trouble and they get no better. They are discouraged, worn out, tired of life. The great specialist in women's diseases, Dr. Greene of New York, 148 State street, Chicago, Ill., has shown thousands of women who thought themselves hopeless invalids the way to health. His office is open to all women for free consultation and advice, or if you will write him about your case, he will advise you by mail absolutely free of all cost and confidentially. The glorious remedies discovered by this profound physician are an invaluable boon to women. It costs nothing to be put on the road to health, and all ailing women should write Dr. Greene at once.

NEBRASKA LEGISLATORS ACCUSED OF BRIBERY.

Auditor of the Pacific Express Company Says Several Members Were Paid For Their Votes—This Constitutes His Defense Upon His Trial For Embezzlement.

Omaha, Neb., Nov. 18.—For eighteen years Fred Bechel of Omaha has been chief auditor for the Pacific Express company. Thursday he was placed on trial for embezzling the funds of that company. Erastus Young, auditor of the Union Pacific railroad, who succeeded Bechel, and was in the position long enough to make an investigation which he alleges developed that about \$150,000 of the company had been squandered, furnishes the evidence for the prosecution. In addition to being auditor for the Pacific Express company, Bechel has been a very prominent politician, being president of the Omaha council when arrested. His friends declare that, while much of that company's funds have been used for political purposes during Bechel's incumbency, the money was paid to members of the Nebraska legislature during the last ten years to head off hostile legislation.

One of the clerks under Bechel was the first witness Thursday. He testified to forcing balances frequently—one time adding \$20,000 to make the books balance. He said he did this under instructions from the assistant auditor and understood that this money was used for legislative purposes at Lincoln.

The testimony brought out the additional fact that many of the books and papers of the department had disappeared when Bechel was arrested. The case will continue a week, but the most interesting phase of this case is that the incoming legislature proposes to investigate the report that thousands have been used to corrupt Nebraska legislators and for this purpose will force the express company to bring in their books for the past ten years.

Text of the Agreement.

Virde, Ill., Nov. 18.—A largely attended meeting of the miners and friends of the men was held Thursday in the opera house in this city to hear the report of the miners' officials as to the settlement of the long-standing strike. The agreement is as follows: "The Springfield scale is to be paid. The men are to receive yardage; no discrimination to be made in the employment of men; the pit boss and the top boss to be discharged; the immediate destruction of the stockade."

The end of the difficulty is a great victory for the miners. Other settlements are close at hand, and the national officers of the miners' union believe every shaft in Illinois, now idle, will have reached an agreement with the men before December.

REV. MR. EATON ON DANCING

Has Declared War On Dancing at Des Moines, Iowa.

E. church, in this city, who became conspicuous in Milwaukee last spring by his sermons condemning the charity ball, has continued his unrelenting campaign of warfare against the so-called evil in his new field of labor at Des Moines, Iowa. The result was apparent in an action recently taken by the ministerial association of that city, which adopted a resolution condemning the ball to be given there shortly.

The Season's Sensation.

The sensation of the season in Newport has been Miss Virginia Fair's pet donkey, Persimmon, and his appearance at Mrs. Stuyvesant Fish's dance. The dance was given for Miss Marion Fish, the daughter of the house, in Mrs. Fish's new villa. When the gayety had well begun Persimmon appeared in the ballroom decked in flowers, with his shoeless hoofs gilded, hitched to a tiny cart in which were the "favors" for the dance, which were baskets of flowers tied with white ribbons. Persimmon behaved nobly. He had been in the eye of the 400 before, when, in 1895, he won a prize at the pony parade given by Mrs. Calvin S. Brice.

From New Zealand.

Reefton, New Zealand, Nov. 23, 1896. I am very pleased to state that since I took the agency of Chamberlain's medicine the sale has been very large, more especially of the Cough Remedy. In two years I have sold more of this particular remedy than of all other makes of the previous five years. As to its efficacy I have been informed by scores of persons of the good results they have received from it and know its value from the use of it in my household. It is so pleasant to take that we have to place the bottle beyond the reach of the children. E. J. SCANTLEBRY, For sale by People's Drug Co.

Reproaches His Confession.

Muncie, Ind., Nov. 18.—Frederick Oland, the twelve-year-old boy who was arrested on the charge of having murdered Andrew Bodemiller, five years old, stoutly denies having killed the child. He says he does not know why he confessed that he is the perpetrator of the crime.

In a search of the Oland home the police discovered a revolver beneath some boards in an outhouse. Officers are now looking for an adult who they believe has been connected with the crime.

Paper Mill Is Held to Blame.

Indianapolis, Ind., Nov. 18.—The appellate court adheres to its former ruling that the pollution of a river by a paper mill subjects the company and its managers to indictment in any county into which the poisoned water carries the refuse and creates a nuisance. It is said that preparations have been made to bring indictments against many paper mills for polluting streams in counties through which the streams run.

SPANIARDS ARE DISAPPOINTED

German Emperor's Visit Does Not Bring The Solace They Expected.

Washington, Nov. 18.—[Special]—Much significance is attached here to the announcement from Berlin that the emperor's visit to Spain will be wholly informal and that he will not even set foot upon the soil of that country, remaining upon his yacht in the harbors he may visit and receiving no official courtesies whatever. This is taken to indicate an intention on his part to keep from expressing any sympathy or even friendship for Spain during the pendency of the peace negotiations with the United States. His course is a sore disappointment to the Spanish officials, who looked for such an expression of regard from the young emperor as would encourage them to persist in their demands for the retention of sovereignty in the Philippines.

Chances of Woman's Life.

An expert in vital statistics gives this as the result of his observations: Of 1,000 women at the age of 20, 940 live ten years more, thus 96 in 100 live ten years more and 6 do not; the chance at the age of 20 of a woman living to the age of 30 being, therefore, nearly 16 to 1 in favor of living. Similarly, of 1,000 women living at the age of 30, 806 live twenty years more; so that we may say that 80 in 100 live to the age of 50 and that 20 do not; the chance at the age of 30 of a woman living to the age of 50 being, therefore, 4 to 1 in favor of living. Again, of 1,000 women living at the age of 60, 250 live twenty years more—that is, 25 in 100 live to the age of 80, and 75 in 100 do not; the chance at the age of 60 of a woman living to 80 being 1 in 4.

Equalizes Acetylene Gas Generation.

In order to control the generation of acetylene gas from calcium carbide, Letang and Serpollet propose, in a communication to the French Physical Society, to steep the fragments of calcium carbide in a hot and concentrated solution of glucose, says a foreign exchange. If the carbide thus treated is, after drying, immersed in twice its weight of water, acetylene is given off in the usual way, and at the same time a saccharate of lime is formed by the interaction of the glucose, the calcium and the oxygen. Under these conditions the generation of the acetylene takes place with great uniformity and is stopped almost immediately on cutting off the supply of water.

AT THE NEW YORK HORSE SHOW—BEFORE THE JUDGES. FROM HARPER'S WEEKLY
After a drawing by MAX F. KLEPPER.

Reproduced from Harper's Weekly. By Permission. Copyright, 1898, by Harper & Brothers

A taste for fine horses is expensive, and the people who cultivate it are for the most part rich people. Being rich, they are incidentally people of fashion, and they form the nucleus of the crowd which gathers once a year at Madison Square, New York City, coming from all parts of the country for the purpose of seeing and being seen. Probably no city in the United States has the perpetual show of horses that can be found in New York City, and the ability to recognize a good horse on the street is a qualification that pays for itself in momentary entertainment a dozen times a day. Horse-

lovers gather at Madison Square Garden, and if they are attentive and persevering, they can hardly help learning something, and if they learn how many different sorts of good horses there are, and by what points each sort is known, their accomplishment will thoroughly repay them for their trouble. There is a certain breeziness in the atmosphere about New York during horse-show week which seems to announce to everybody that this particular week is given up to the horses. Madison Square Garden is crowded every day and enthusiastic admirers, and the equine thoroughbred, appreciating the admiration,

gallops and paces proudly around the tank. Our picture taken from Harper's Weekly shows a four-in-hand before the judges. When the evening's entertainment is over, the crowd adjourns to Delmonico's, Sherry's, or the Waldorf, and there, seated around small tables, they laugh, talk, partake of refreshments, and enjoy the hospitality of these great and famous hostesses. The show, which begins on Monday, usually lasts six days, and it is a great show, edifying to the horse-lover, the anthropologist, and the philosopher, and it is a show not to be neglected by any one interested in horses.

Naval Force, Asiatic Station. Flagship Olympia." The request of the autograph was sent from Afton, August 5, and the return letter is postmarked September 30, reaching the Afton office, November 15. It is needless to state that the souvenir is very highly prized by its recipient. Rev. A. C. Kempton, the popular pastor of the Janesville Baptist church, was a visitor in our town last Tuesday. Will Kennedy, of Beloit, was the guest of F. R. Eldredge Sunday. Chairman W. J. Miller had the misfortune to be kicked on the forehead by a colt last Tuesday noon and while not of a serious nature yet the injury was a painful one. Dr. Pomer dressed the wound. John S. Rice, of Madison, is now night operator at the C. & N. W. station here, former Operator Matthews having secured a day position in the tower located between Caledonia and Belvidere. Miss Sarah Z. Draafahl returned Monday from a week's visit with relatives at Fort Atkinson.

Center.
Center, Nov. 18.—Fred Hunt, representing the Perkins Wind Mill Co. of Mishawaka, Indiana, has erected for William Howell a sixty-foot steel tower with fourteen-foot power mill. It is also supplied with feed grinder, and is an up-to-date outfit, it being the one that was on exhibition at the Wisconsin state fair. J. H. Fisher attended a meeting of the state board of the Christian Missionary society at Madison on Monday, or which he is a member. Mrs. Eliza Snyder will leave for the north Saturday, where she will spend the winter with relatives. Election passed off very quietly in our town. We are sorry to state we have fourteen weak-kneed, feeble-minded, 16 to 1 free silver republicans. Prayer meeting was held at the home of John Goldsmith, Wednesday evening. Miss Mary Whitmore has a class in elocution which meets at her home each Saturday. Mr. and Mrs. Fred Schroeder, of Green Bay, are visiting relatives. Mrs. Emma Warner, of Beloit, spent Saturday with her sister, Mrs. Geo. Apfel. Mr. and Mrs. P. H. Torpy presented their son with a fine organ which they purchased at Fleck's music store. Mrs. Julia Howell is entertaining a sister from Iowa. After due consideration it was thought best to give the Thanksgiving supper on Thursday night, Nov. 24th, at the home of Mrs. W. H. Dean. A very entertaining program is being pre-

pared also the missionary quilt and other articles will be sold at auction. A cordial invitation is extended to all.

Lima Center
Lima Center, Nov. 18.—Your correspondent returned last Friday from a four weeks' visit with friends at Heart Prairie and Millard. John Collins is having his house shingled. Miss E. Child went to Janesville Wednesday for a few days' visit with friends. John Hachel and family, of Whitewater, and E. C. Abbott and daughter Kittie, of Johnston, and Miss Phoebe Jones, of Chicago, were all callers at H. L. Jones' last Sunday. Miss Nettie Borden and nephew, of Millard, dined at George Rice's last Friday. It has been proved that a steel windmill does not make a good hitching post. H. Dixon, while making a call at William Boyd's, hitched one of his horses to a post of the windmill. While unhitching the horse, the animal pulled back, bending the post, and causing the whole structure to fall with a crash to the ground. Fortunately, Mr. Dixon and the horses escaped serious injury, but it took about forty dollars to repair the damage. Miss Florence Stetson closed her fall term of school last Friday. The next day she took the train to visit her sister in Chicago. Last Saturday afternoon while L. C. Orcutt, our lumber dealer, was unloading lumber, he fell from the car to the ground, where he was found in an unconscious condition. He was taken to the office of Dr. Stetson where his injuries were examined, and found to be severe. He remained in a dazed condition for several hours. A dispatch was sent to Milton for his wife, who came and remained with him at the doctor's house until Monday evening, when he was able to take the 5 o'clock train for his Milton home. Nearly a hundred of the friends and neighbors of Mr. and Mrs. William Freeman met at their home Tuesday evening to celebrate the thirtieth anniversary of their marriage. The guests were unexpected but nevertheless received a warm welcome. Everyone seemed to be in the best of spirits, and the evening passed quickly and pleasantly. An excellent and beautiful supper was served, and at a late hour, the guests departed, leaving as tokens of good will and esteem, a couple of fine rocking chairs, and several other valu-

able presents. These were presented in behalf of the company, by Mr. Gleason, with a few appropriate remarks: Miss Rose Wilber, of Milton, was in Lima Saturday and Sunday, to see her uncle, Mr. Orcutt.

MRS. LUCY GOODWIN

Suffered four years with female troubles. She now writes to Mrs. Pinkham of her complete recovery. Read her letter:

DEAR MRS. PINKHAM:—I wish you to publish what Lydia E. Pinkham's Vegetable Compound, Sanative Wash and Liver Pills have done for me.

I suffered for four years with womb trouble. My doctor said I had falling of the womb. I also suffered with nervous prostration, faint, all-gone feelings, palpitation of the heart, bearing-down sensation and painful menstruation. I could not stand but a few minutes at a time. When I commenced taking your medicine I could not sit up half a day, but before I had used half a bottle I was up and helped about my work.

I have taken three bottles of Lydia E. Pinkham's Vegetable Compound and used one package of Sanative Wash, and am cured of all my troubles. I feel like a new woman. I can do all kinds of housework and feel stronger than I ever did in my life. I now weigh 131 pounds. Before using your medicine I weighed only 103 pounds.

Surely it is the grandest medicine for weak woman that ever was, and my advice to all who are suffering from any female trouble is to try it at once and be well. Your medicine has proven a blessing to me, and I cannot praise it enough.—MRS. LUCY GOODWIN, Holly, W. Va.

WILL MEET IN SEATTLE.

Committee Women of the W. C. T. U.
Complete Their Work.

St. Paul, Minn., Nov. 18.—A meeting of what is known as the post-executive committee of the W. C. T. U., by which various matters of business referred to it by the convention are acted on, was held in this city Thursday. Seattle was decided upon as the place for holding the next convention, the time to be about the middle of October. At the afternoon session the resolution by Mrs. A. S. Benjamin against indorsing any affiliated interests was laid over till the next convention, when it is believed it will be adopted. The committee refused to grant the request of the Willard Temperance hospital trustees for a call for a donation of 10 cents a member for the use of the hospital. In view of the action against the temple the committee did not think it should attempt to raise money for any other affiliated interest.

Long Wants More Warships.

New York, Nov. 18.—A Washington special to the World says: "Secretary Long in his annual report will recommend the construction of three first-class battleships, five first-class armored cruisers of the highest speed and power, and five second-class copper-sheathed cruisers. He will also recommend an addition of 5,000 men to the navy. It would require more than \$50,000,000 to construct the proposed warships. They could not be built in less than three years."

Switchman Says He Was Overworked.

Toronto, Ont., Nov. 18.—At the inquest in the Murray Hill railway disaster on the Grand Trunk railroad, which caused the loss of eleven lives, John Murphy, the switchman, admitted that the accident would not have occurred if he had done his duty at the switch, but he showed that he was overworked, being on duty from 7 o'clock in the morning till 7 at night, and he thought the accident was the result of compelling him to do extra work.

MORE RIOTS AT PANA.

Rifle Shots Are Exchanged Between Negroes and White Miners.

Pana, Ill., Nov. 18.—Two battles took place Thursday afternoon between union white miners and negroes in Springside, a suburb of Pana, where the Springside coal mine is located.

The first encounter started by an unknown negro firing upon Wesley Pope, a striker, who was in front of Ald. Geo. Craven's residence, conversing with Mrs. Craven. Mr. Craven is president of the Miners' union. Pope was unarmed, but ran to his home and secured a rifle. Returning, he opened fire on the negro. Pope was re-enforced by union miners, and the negro, after falling twice beneath the rain of bullets, was driven into an adjacent cornfield, where he sought shelter.

Troop A of Bloomington turned out immediately with a Gatling gun, but when the firing ceased it remained in waiting at the barracks. Citizens rushed through the streets crazed with excitement.

The second fight broke out in the eastern section of the town thirty minutes after the first encounter. The negro, who had been driven into the cornfield, made his way to the Springside stockade, from whence came a body of colored men armed with rifles. They made their way through alleys to Jefferson street, where they used shade trees for shelter, and immediately opened fire upon a body of strikers. Their aim was high, and the strikers, dropping to the ground, began a steady fire upon the negroes, who soon retreated to the stockade. Fully 500 shots were exchanged, but with what effect could not be ascertained.

Shortly after the second encounter a guard of Troop B made double-quick time to Springside, but arrived too late to make any capture of those participating in the fight.

The soldiers are patrolling business and mining districts under strict orders. Capt. Butler says he expects an outbreak at any time.

SLAUGHTERED ON
THE PENNSYLVANIATHIRTEEN LABORERS CRUSHED
TO DEATH TODAY.

Were Not Seen On Account of a Heavy Fog—Nearly Every Man in the Gang Either Killed Or Dangerously Injured—No One Is Held Responsible.

Jersey City, Nov. 18.—[Special]—Thirteen Italian and Polish laborers were killed just west of Jersey City this morning by a train on the Pennsylvania. The victims were at work repairing the tracks, and the engineer did not see the men on account of a fog. As the locomotive struck a fearful cry went up. It startled the engineer and passengers. Just then the fog lifted and a shocking scene was revealed. All along the track were portions of bodies, and the cow catcher was covered with blood. The corpses and wounded were placed on the train and brought to this city. There were twenty men at work at the time of the accident and those who escaped death received serious injuries. None of the dead have been identified.

Take Particular Notice.

All those indebted to me are requested to call at my store, on the bridge, and settle up, as I am closing out and will be in Janesville only a little while longer. John Weisend, on the bridge.

SERVICES OVER SUICIDE'S REMAINS

MRS. CHAS. HUEBEL BURIED
HERE TODAY.

Body Taken From Train to St. Mary's Church—Services Were Largely
A tended and the Floral Offerings
Were Many—Several Accompanied
Remains Here From Watertown.

All that was mortal of the late Mrs. Charles Huebel, of this city, who committed suicide at Watertown, Wednesday by shooting herself in the head and by taking a dose of rough on rats, arrived in the city at noon today via the Chicago & Northwestern railroad.

The remains were accompanied by many relatives and friends of the deceased who reside in Watertown and vicinity, among whom were Mr. and Mrs. Martin Petro, father and mother of the deceased.

At the depot many friends from this city had gathered, and as soon as the remains were taken from the train they were conveyed to St. Mary's church, where impressive services were held, conducted by Rev. Father Goebel. The sacred edifice was well filled by friends who had loved and esteemed the deceased through life. Many handsome floral designs were placed about the casket, several being brought from Watertown. At the close of the services the remains were interred in Mount Olivet cemetery. The pall bearers were residents of Spring Brook, residing near the Huebel home.

BISHOP NICHOLSON
DELIVERED TALK

THE MEN'S CLUB FORMED LAST
EVENING.

Starts Out With a Membership of Fully
Thirty, and Will Be Increased to
Sixty—Its Object Is Fellowship
and Mutual Improvement—Banquet
Was Served.

Thirty young men of the city met last evening at the Christ Church Parish house and formed what will be known as "The Men's Club."

The object of this new society will be to promote the welfare of the community by good fellowship and mutual improvement. Bishop I. L. Nicholson, of Milwaukee, was present, and delivered an eloquent address that proved a rare treat. He gave an interesting outline of the object of such a club, stating it had numerous benefits, for it made each and every one better acquainted.

Short talks touching on the work were given by Judge John R. Bennett, Attorney William Ruger and others.

At 6:30 o'clock a tempting spread was served by the ladies of the Christ Church Guild.

"The Men's Club" will meet once a month, and it is the present intention to increase the membership to sixty. No constitution or by-laws govern the club, and its success is already assured.

This new organization will work about on the same basis as the Twilight club.

IT IS A ROARING FARCE

"Why Smith Left Home" is to Be Explained at the Opera House

The names in the cast of George H. Broadhurst's latest farce, "Why Smith Left Home," which will be the attraction at the Opera House on the 22nd inst., show very plainly to those acquainted with the market value of actresses and actors that the company will be one of the most expensive seen

in comedy in recent years. The company includes: Maelyn Arbuckle, M. B. Snyder, Harry Webster, Fred Peters, Maurice Darcy, Harry Rose, Marion Giroux, Mrs. Annie Yeamans, Blanche Chapman, Gertrude Roosevelt, Rose Snyder, Dorothy Usner and Jessie Conant. Mrs. Annie Yeamans, who is an important member of the company has been on the stage longer than any other woman in the profession since the death of Mrs. John Drew. The clever actress has completed her fiftieth year as a comedienne. No woman has been more revered and respected. Her career in front of the footlights has been long and honorable and it is by no means ended yet. Author Broadhurst has given her a splendid part in his latest farce.

SUPERVISORS END THEIR SESSIONS

LEVY FOR THE NEW JAIL IS
AUTHORIZED.

Register of Deeds' Fees Will Be Considered Later—Thanks to the Retiring County Clerk Responded to In a Feeling Manner—Final Adjournment.

At the closing session of the board of supervisors yesterday afternoon resolutions were adopted forbidding the use of the county jail by the city of Janesville.

A levy of \$12,000 for the building of a new jail was authorized, and the building committee was authorized to have plans for the jail prepared.

The matter of the fees to be allowed the register of deeds was laid over.

The thanks of the board were voted to W. J. McIntyre, county clerk, for the able, courteous and conscientious manner in which he has performed the duties of his office in connection with the deliberation of the board.

Mr. McIntyre responded to the resolution by stating that he had been a member for seventeen years, had been elected chairman twice and served as clerk for six years. He had expected to remain for another term. The people, however, had willed it otherwise and he always bowed to the will of the people. He complimented the members of the board on their conduct toward each other, to the chairman and the clerk. He had never been associated with a better lot of men. He was friendly to all and thought they were to him, and trusted he would ever in the future meet them as friends.

Harmless, Lasting Cure.

There are plenty of pile cures which give relief and sometimes cure a mild case of piles, but there is only one which can be depended upon with certainty to cure obstinate, long standing cases, and that is the Pyramid Pile Cure.

Endorsements and testimonials are received daily from men and women whose integrity and reliability are above question, and in this connection a letter received from the Rev. Jas. H. Westbrook, of Boyne, Mich., may be of interest to pile sufferers who have sought in vain for a cure. He says:

"I have used the Pyramid Pile Cure and I know that it is all that is claimed for it. I had been troubled with piles more or less for about eighteen years and I had tried other remedies, but the piles grew worse until about ten months ago I used the Pyramid Pile Cure. It gave almost instant relief and I have been free from piles ever since.—Rev. Jas. H. Westbrook.

Mr. Frank Smith, the well known and popular druggist of Ypsilanti, Mich., in speaking of the Pyramid Pile Cure says: "A year ago I sold C. C. Potter, 119 Hamilton St., Ypsilanti, Mich., a box of the Pyramid Pile Cure. He made the following statement to me today: 'I have been troubled for twenty years with itching piles. Have tried nearly everything that promised relief, but got very little help until one year ago I called on my druggist, Frank Smith, and got a box of the Pyramid Pile Cure. The one box used according to directions was, in my case, a perfect cure, as a year passed without any symptoms of the trouble has convinced me.'"

Although a comparatively new remedy its popularity is such, that all druggists now sell it; if your druggist hasn't it in stock, he will get it for you if you ask him at 50 cents and \$1.00 a package. A pamphlet describing the cause and cure of piles sent free by addressing the Pyramid Drug Co., Marshall, Mich.

LODGE TALKS OF BUSINESS

Says the United States Should
Demand an "Open Door."

OUR INTERESTS IN THE EAST.

Senator from Massachusetts Thinks Our
Present Navy Too Small for Our
Needs—Struggle for Commercial
Supremacy Bound to Ensnare.

Boston, Mass., Nov. 18.—Senator Lodge in an address at the Boston Boot and Shoe club's banquet said: "I come now to what I think the government ought to do. The success of the English-speaking race which has carried it all over the world and made it the great industrial and commercial people of the earth today has been due to the principle of self-help. But there are certain things which the spirit of American enterprise must look to the government to do.

"You cannot expect men to carry your products and to extend your trade by establishing themselves in distant portions of the earth unless you have a government that is ready to protect them at all times and at all hazards. 'We want no commerce at the cannon's mouth, but we do want it understood that wherever an American is engaged in business there he is to be

SENATOR LODGE.

protected and that there is a navy of the United States big enough to guard him wherever he sees fit to go. Therefore I say that we need a large navy as a protection to commerce on the sea as well as on the land.

"The question that confronts us is a larger one than what we shall do with the Philippines. They say we are not an eastern power unless we hold those islands.

"We are today the greatest power in the Pacific ocean. We hold one entire side of that ocean, except the outlet which Great Britain has in Canada. We hold the halfway house in Honolulu, where all ships must stop when the Nicaragua canal is built, as it will be. Are we going to allow the ports of the east to be closed to us and open to Russia, France and Germany alone? Or are we going to stand up and say, with Great Britain and Japan, 'the ports of China must be closed to all or they must be open to all?'

"It is going to be a struggle, in my judgment, between the maritime nations and the nonmaritime nations. It is going to be a struggle to see whether the people who speak the English tongue are to go to the wall, or whether they are to have their share in the commerce of the earth wherever they fly their flag.

"I believe that the United States is entitled to its share of the world's commerce. I do not believe that we should be shut out from it, and I do not think that there is the least danger of war anywhere if we are far-sighted enough to make it known to the world just what we want and just what we intend to do.

"Let our government have wisdom in its foreign policy and its treatment of our merchant marine, and the genius of American invention and enterprise will do the rest."

Imports of Gold Are Large.

Washington, Nov. 18.—The importations of gold into the United States in the year 1898 are by far the largest in the history of the country, and the exportations the smallest in many years, while the production of gold from our own mines will prove the largest in many years, if not the largest in the history of the country.

Three to two,

Favorite Base Burners have three hot air flues. Other stoves have but two.

Never noticed the flues?

Most people haven't.

Flues carry the heat from the fire pot around the stove. In a three-flue stove (the Favorite) two flues carry the heat down the outer edges of back and around the extreme outer edges of base to the front of the stove. Here they unite and return across the center of base and up the center of back.

Three flues on the back of stove, three flues on the base of stove.

Every inch of the stove a positive heating surface.

A two-flue stove has but one flue down and one flue up

The three-flue arrangement spreads the heat to the extreme outer surfaces of the back and of the base.

The more heating surface you have the less coal you waste.
